

PICTURE BOX

The UK's Most Cost Effective Screen

Our 27sq m mobile screens represent the backbone of our mobile screen fleet proving to be one of the most popular screen solutions available in the market today. Fitted with onboard power plant and a fully equipped production suite. One of the key benefits of this screen type is that it can be deployed very rapidly with average screen set up times of around 15 minutes.

The edit suite comprises of:

- Panasonic or Sony 8 input mixing desk.
- Sony DSC 1024 scan converter
- DVD player
- DVD recorder
- 16 channel sound desk
- Laptop computer for Powerpoint

Options:

- 8 camera inputs
- Record of individual camera footage
- Talk back system
- Digi beta
- Triax cameras
- Composite cameras
- Satellite link
- Remote microwave cameras
- Audio systems
