

12sqm 360° Mobile LED Screen

With an impressive 10 minute set up time, a hydraulic self levelling system and a 360° rotating mast for a more flexible viewing position.

An onboard, portable production unit (PPU) that boasts an 8 input SDI vision mixer, a scan converter for playing PowerPoint presentations, photographs and messages from a laptop, a DVD player and recorder, output monitors as well as monitors for preview and TX.

The mixing desk can take all of the above inputs and mix seamlessly with live cameras to give a truly impressive show.

There is also an onboard generator, making this unit another completely self contained LED screen package from Lightmedia.

Specification:

- LED screen size – 4.5m W x 2.6m H
